

PRODUCT SUMMARY

Known for its gentle, woody aroma, Copaiba essential oil is a product of steam distilling the gum resin tapped from the Brazilian *Copaifera reticulata* tree. Copaiba oil has high levels of beta-caryophyllene and a uniquely sweet aromatic profile, which helps create a relaxing atmosphere when it is diffused or applied topically.

Copaiba is a great addition to your daily routine and skin care. Add it to a neutral moisturizer to utilize its natural fragrance and moisturizing properties. It can also be applied following activity for a comforting cooldown.

KEY INGREDIENTS

Copaiba essential oil

EXPERIENCE

Copaiba's warm, slightly woody aroma creates a comforting environment when diffused. It is a great addition to your daily routine and skin care when used topically.

PRODUCT BACKGROUND

Copaiba essential oil is the product of distilling the gum resin tapped from the Brazilian *Copaifera reticulata* tree, native to the Amazon region of the country. The copaiba tree grows between 15–30 meters high and produces tiny white flowers and small nut-like fruit, neither of which are used in the production of the essential oil.

Copaiba has been used for various purposes in areas where it grows natively since at least the 16th century. Beyond its use in Young Living essential oil blends, Copaiba is used in many soaps, lotions, and perfumes.

Aromatic

Topical

BENEFITS & FEATURES

- Provides a calming aroma
- Can be diffused to create a warm, inviting environment
- Can be massaged into fatigued areas after activity
- Includes the naturally occurring constituent beta-caryophyllene
- Can be applied to skin to promote the appearance of a youthful, radiant glow

SUGGESTED USE

- Add Copaiba to a moisturizer or skin cream to help enhance the appearance of a youthful, radiant glow.
- Dilute with V-6™ Vegetable Oil Complex and massage it on fatigued areas after exercise for a relaxing cooldown. To add a cooling sensation, combine Copaiba with Peppermint or Wintergreen essential oils.
- Diffuse it to create a warm, inviting space. Create a custom blend by adding oils such as Cedarwood or Cinnamon Bark.
- Create a natural beard oil with Copaiba, a lightweight carrier oil, and a complementary oil such as Northern Lights Black Spruce or Peppermint.

DIRECTIONS
