

PRODUCT SUMMARY

Young Living's Dewdrop Diffuser functions as a humidifier, atomizer, and aroma diffuser in one simple-to-use product. Inspired by the purity and elegance of a drop of morning dew, the Dewdrop Diffuser's design reflects Young Living's dedication to providing high-quality essential oils. Its ultrasonic technology breaks any mixture of essential oils and water into millions of microparticles, disperses them into the air, and releases the constituents found in Young Living essential oils. Custom designed with up to ten hours of diffusion, automatic shut-off, and 11 LED light options, Young Living's Dewdrop Diffuser can transform any space into a spa-like atmosphere.

EXPERIENCE

Transform your surroundings: The ultrasonic frequency generates waves at 1.7 million times per second, releasing essential oil molecules into the air to help create a relaxing, spa-like atmosphere in your home or office.

PRODUCT BACKGROUND

Diffusion disperses essential oils into the air without heating or burning, unlike aroma lamps or candles that reduce the oil's benefits.

The Dewdrop Diffuser runs for up to ten hours.

BENEFITS & FEATURES

- Transforms any space into an inviting, aroma-filled atmosphere.
- Diffuses essential oils to dispel odors and create a relaxing atmosphere of peace and harmony.
- Offers a customized experience with three run modes: High mode runs approximately 5 hours continuously. Low mode runs approximately 8 hours continuously. Intermittent mode (1 minute on/1 minute off) runs approximately 10 hours.
- Adds light to any room with 11 different light settings that can be turned on or off independent of diffuser function.
- Creates a romantic environment with its candle-like flicker mode.
- Transitions gently from one color to the next when in light cycle mode.

DEWDROP™ DIFFUSER

SUGGESTED USE

1. Remove both outer and inner lids.
2. Add water until level reaches, but does not exceed, the red water fill line marker.
3. Add 5-8 drops of essential oil.
4. Replace both lids back onto the unit; align the groove on the outer lid to the notch on the base.
5. Plug the power adaptor into a power outlet.
6. Press the on/off button to switch on.
7. The unit should be producing mist and the LED light should be on.

CAUTIONS

- Keep out of reach of children.
- If you are pregnant, nursing, taking medication, or have a medical condition, consult a health professional prior to use.
- For all other safety and care information, refer to the Dewdrop Diffuser Operation Manual.

- Capacity: 180ml
- Weight: 0.97 lbs. (0.44 kg)
- Dimensions: 13.5 x 13.5 x 19 cm
- Room Coverage: Medium room (approx. 30 m² / 323 ft²)

FREQUENTLY ASKED QUESTIONS

Q. How much water does the Dewdrop Diffuser hold? How long will it run before it needs to be refilled?

A. The diffuser holds about $\frac{3}{4}$ cup (180 ml) of water. High mode will run approximately 5 hours continuously. Low mode will run approximately 8 hours continuously. Intermittent mode (1 minute on/1 minute off) will run approximately 10 hours.

Q. What type of plastic is used for the Dewdrop Diffuser?

A. The plastic used for the Dewdrop Diffuser is polypropylene, and it is safe for use with essential oils.

Q. How many LED light color options are there, and do they change color?

A. The Dewdrop Diffuser offers 10 different light colors and 11 individual light settings, including a candle-like flicker mode. The lights can also run independently from diffusion modes or be turned off while diffusing.
