YOUNG LIVING SEEDLINGS™ *Diaper Rash Cream*

PRODUCT SUMMARY

Seedlings Diaper Rash Cream is made with 100 percent naturally derived ingredients, including 100 percent pure essential oils, botanicals, and non-nano zinc oxide, and is vegetarian friendly. This thick, Lavender-scented cream reduces the duration and severity of diaper rash when applied at the first sign of redness. It soothes on contact, protects your baby's delicate skin, and acts as a physical barrier to wetness.

Seedlings Diaper Rash Cream can be used as a preventative measure before bed or anytime when exposure to wet diapers may be prolonged. The extra gentle, mild formula—developed specially for your infant's tender skin—seals out wetness and helps balance skin moisture while reducing redness.

KEY INGREDIENTS

Non-nano zinc oxide, Mango butter, Murumuru butter, Lavender essential oil, German Chamomile essential oil, and Helichrysum essential oil

EXPERIENCE

Seedlings Diaper Rash Cream is a thick, white cream that smooths gently over very dry, irritated, or sensitive skin to soothe on contact and provide immediate relief.

PRODUCT BACKGROUND

Parents make hundreds of decisions every day about their family's well-being, and we want to make it as easy as possible for them to choose the right products for their babies. We developed our Seedlings line to provide naturally derived and plant-based solutions for the littlest, most vulnerable members of our families. Traditional diaper creams contain ingredients we don't want to put on our baby's delicate skin, especially on irritated and sensitive areas. Seedlings Diaper Rash Cream offers a 100 percent naturally derived formula that is approved for the treatment and prevention of diaper rash.

†100% pure, therapeutic-grade essential oils

FREQUENTLY ASKED QUESTIONS

Q. What is the difference between Seedlings Diaper Rash Cream and KidScents Tender Tush?

A.. KidScents Tender Tush is a thinner ointment designed primarily to moisturize dry skin, including the diaper area. Seedlings Diaper Rash Cream is a thick, white paste that seals out wetness and contains zinc oxide to treat, prevent, and relieve diaper rash.

Q. Is Seedlings Diaper Rash Cream vegan?

A. Seedlings Diaper Rash Cream contains beeswax, so the formula is vegetarian but not vegan.

Q. At what age can I start using Seedlings Diaper Rash Cream on my baby?

A. Seedlings Diaper Rash Cream can be used on babies of any age, including newborns.

Q. What is murumuru butter? Why is it used in Seedlings Baby Lotion?

A. Murumuru butter comes from murumuru palm trees native to the Amazon. It's highly moisturizing, absorbs easily into skin, and helps support the skin's moisture barrier.
